	Description V
	of all integers on its right in the array A. Print the index of the equilibrium position.
LAOA.T 27	
ENOR	Note: For any given array there is only a single equilibrium position, if no equilibrium position is found then print "NOT FOUND" without quotes.  The array is 1 indexed.
	The array is 1 indexed.
· 2 AME	
22812414	Input Format: The input consists of two lines:
c	The input consists of two lines:
NE AO A.T.	The first line contains an integer denoting N.
AFR	The first line contains an integer denoting N.  The second line contains N space-separated integers denoting the elements of the array A.  Input will be read from the STDIN by the candidate.
-	Input will be read from the STDIN by the candidate
2281245	Output Format:
	Output Format:  Print the index of the equilibrium position. If no index is found, print "NOT FOUND"
